

# High Risk Managed Services

Secure solutions for high threat, challenging, complex and remote environments.

**Control Risks is the leading global specialist in providing security, risk consulting, threat analysis and mitigation.**

Since 1975, Control Risks has been helping organisations to operate in high-threat environments and be more secure, compliant and resilient.

It's our safety-first approach; tapping into unrivalled information and risk analysis that underpins everything we do. It's this philosophy that ensures our clients are safer, better protected, and able to prosper whilst working in a range of high-threat, challenging and remote locations.

We own and maintain operational assets and do not rely on subcontractors. All our services come with the highest levels of quality and professionalism, ensuring your duty of care to your staff.

## High Risk Managed Services

### Always on hand

Security you can trust

- ▶ Control Risks provides global, round-the-clock, low profile and overt security solutions
- ▶ We own and maintain a widely deployable armoured and soft-skin vehicle fleet, providing reliability and quality at a scale to meet your operational needs
- ▶ COVID-19 secure protocols are strictly enforced for all visitors, vehicles and facilities

### Planned with care

Let us deal with the complexities of working and moving within challenging locations

- ▶ Situational awareness by discreet tracking systems and real-time information feeds from Control Risks in-country operational command centres
- ▶ Control Risks liaison and analysis teams provide detailed local, national and global risk intelligence
- ▶ Our in-country experts conduct detailed threat and risk assessments prior to all planned movements for your protection

### Quality-assured service

Peace of mind when working in high-risk locations

- ▶ Control Risks recruits, trains and retains staff from the best and most qualified professionals around the world
- ▶ Wherever we operate, we apply the strictest ethical, legal and regulatory standards
- ▶ We are accredited to the highest international benchmarks, certified in ISO 9001, ISO 18788, ISO 45001, PSC1, ICOCA, The Voluntary Principles and the UN Global Compact
- ▶ Our staff are trained to globally recognised standards. For example, all our drivers pass UK driving tests and our security team leaders must achieve FPOSi certification (the internationally recognised award for high threat and remote environment medics)
- ▶ Our dedicated compliance teams ensure that our service continually conforms to regulatory requirements, providing an uninterrupted service for our clients

### Well-connected

Benefit from our knowledge and our network

- ▶ Our 47 global offices and locations give you access to an impressive network of local and international security professionals
- ▶ Our network of local liaison officers guarantee exceptional quality host-nation knowledge and language support
- ▶ Control Risks has unmatched skill in building trust and reputation with the international partners that are essential to your success. For example, we are the only western security consulting firm with a continuous presence since 2003 in the Baghdad International Zone
- ▶ Our government liaison experts have experience in supporting major international energy companies, diplomatic missions and key investors

### Above and beyond

Life support and accommodation taken to a new level

- ▶ Our deluxe, secure accommodation and life support services ensure that your staff are protected, comfortable and supported during their stay so they can focus on your business
- ▶ We scope and source the safest existing accommodation in challenging locations

## Our global presence

Ready to go where you need to go. We don't just know the world – we live and work in every continent.
